

Thurs. night

6-10-16

RAND - for Type I - citrus in det
(Porteria)

(+ the real estate

Prompter - D-L/CT is fine)
work

no citrus higher
(conversion) (no citrus / no C³)

opt. mix: citrus
mile

no one said
that but one
her chair

like "previous honey doctrine"

is very WWTB
USAAF

(vs. Dambert
vs. Harris)

(need by force for either
moral or rights)

Excluded

But as in WWTB: MIL. alone is sufficient

(WWTB - can't prob. be)

in WWTB: can't hit and indirectly exp. paper
alone on average then, conversion is out

(can't define SU of AD from rules
must kill prop. (+ rules)

(hardly worthwhile to target any ICBMs

except as effort for prompting

+ being large, about from

here, even larger force

(vs. quick
in det)

(can but not for ICBMs - still
+ trial)

6-10-12

World Enforce sanctions?

Would SU do so?

Warning?

All involved to whether Barb would
be used or not — as city (Kyoto's industry?
nice?)

No time for warning, done, before SU come in

1st — led on targeting to the level

"will leave

— to spare cities!

Striven from — no cities left.

What other missions planned? Paterson

on Aug 6 or July 27
7 to Aug 6

? If we raise the price

10 — 15

— Hypo: Before Trinity (Aug 17) they went SU to
come in. (but not before Barb: Aug 3...

After 17th (dropped T to Barb on 17th) T + B don't
want SU to come in at all: left. before Bombs —
Aug 9 (when was Nag/Po made? Weather?)

delay —
didn't tell
Stalin of
A-bomb

Martin could in level —

To offset Khrushchev's position

2) do the united SU in paper?

b) will they have to compromise on
Poland, East Germany — for control of Hungary,
East?

~~But~~ After 17th, Thst doesn't
(have to) compromise, can "demand" —

but this has no effect —

"Khrushchev" at Potsdam (9 folders)

* doesn't effect control of East Europe
is East Germany... Atlantic Def. forces

(A-bomb does allow US to

own ^{West} Hungary (hold off SU.
keep W. Berlin and not share
control of West...)

and paper wants to surrender (only) to
US, when SU does come in

(with or without Berlin)

Better to be occupied wholly by US
than partly by SU

(Would they have surrendered without Europe?

(Or is it US guarantee US control Europe?) if true

Quota: 8 new makes

Hally - Ethel then born from
wound

Lepeta - creaking

4000 new - cities

Entomology & birth & cities

Harris - one British garden

(Powers in garden - who?)

"if it seems distant here" - vs. Vera Britton
was garden some good troops

LeMay - behind, behind, searched over him...

(No night lot 5000 feet - but small)

My last: 300 feet

frontal: more ^{expensive} ~~destructive~~ power than opponent

(BUT: if sky is dark

if fallout has blanketed SL

if cities are all burnt

(LeMay - most of targets
